	<p style="text-align: center;"><u>Swine Flu Infection Control</u></p> <p>CES recommend the following products for healthcare professionals and other individuals in close contact with the Swine Flu virus. For further detailed information please visit www.Directgov.uk . For product information, please call customer services on 01634 719422.</p>
	<p><u>Face Masks: Two way protection for both you and those around you!</u></p> <ul style="list-style-type: none"> • <u>FM908</u> Unlike conventional masks the unique design ensures a complete "facial lock" around the entire face providing extra protection against airborne viruses. Combined with the 98.7% filtration efficiency @0.1 micron (virus size) this is one of the most efficient masks on the market to protect both the wearer and surrounding persons from harmful contamination. The comfortable one piece headband ensures fast and easy donning.
	<ul style="list-style-type: none"> • <u>BCR1</u> The BCR 1 is a single packed (x 50) face mask with a 96% filtration efficiency @1 micron. The loops can be used to fit around the ears or clipped behind the head with the clip provided.
	<p><u>Hand Sanitisers: Most germs & viruses are attributed to poor hand washing & cross contamination!</u></p> <ul style="list-style-type: none"> • <u>IC210 NovaClenz Instant Hand Sanitiser</u> Supplied in a convenient pump top 500ml bottle the NovaClenz requires no water or towels and is fast acting against bacterial transfer from door handles, shaking hands, work surfaces and other means of inadvertently cross contaminating.
	<ul style="list-style-type: none"> • <u>Trigel NH & NHT Nursing Hands & Tottle</u> The Nursing Hands sanitiser is available in a 500ml bottle or convenient 50ml "tottles" for attaching to uniforms and work wear for hand sanitising "on the move". It effectively protects against a wide range of bacteria, spores and fungi whilst ensuring that the hands remain moisturised due to the aloe vera composition. No water or towels are required for either version.
	<p><u>Surface Wipes: For the sanitising of hard surfaces such as work tops and door handles</u></p> <ul style="list-style-type: none"> • <u>53201C Azo Wipes</u> A cost effective and convenient method of sanitising any surfaces that can come into contact with hands or food stuffs. These wipes will effectively "clean" door handles, work tops, and any hard surface but can also be used as a means to kill harmful bacteria from hands thus reducing the risk of cross contamination and preventing infection. 200 wipes per re-sealable tub.
